

Top Tip Tuesday– Plumbing

Date	Tip
	<p>Autumn leaves getting the best of your drains? Fallen leaves can cause major blockages in outdoor drains, make sure you leave time to clear these before it's too late! Outdoor drain already blocked? Call us on ### to have one of our plumbers clear it for you!</p>
	<p>Think you're accidentally putting too many food crumbs down the sink? Fit your sinks with strainers to effectively capture food, hair and other nasty 'drain clogging' items.</p>
	<p>Flushing of facial tissues and wipes can have absolutely devastating effects on your pipes, resulting in some of the worst blockages possible, whilst also wasting up to 18 litres of water PER FLUSH. Throw these items in the bin to ensure your bathroom pipes are kept in tip-top condition!</p>
	<p>Inspect your washing machine hose on a regular basis by running your fingers along it and checking for kinks or breakages in the wiring. A failing washing machine hose can potentially flood your home.</p>
	<p>Want to save money on your water bill? Turning the tap off when you brush your teeth can save up to 6 litres of water per minute!</p>
